NEW ORE BODY AT THE O. K. MINE

Eighty Feet of Copper Pyrites for a week or two yet. Opened in New Territory.

AMONG DIVIDEND PAYERS.

Total of \$280,000 This Month With

More Coming Next.

Including the \$5,000 dividend just declared by the Sacramento company, which will be passed around among the shareholders on the 1st of the coming month. Utah mining companies have this month curiched their shareholders to the extent of \$288,000. The contributors have been the Daly-West, with \$108,000; Silver King, \$100,000; Consolidated Mercur, \$90,000; Grand Central, \$25,000, and the Sacramento, \$5,000. Bad roads have been the cause of the Utah company deciding to hold off a short time, but there is no question but that it will-be back in the list next

NEARING THE VEIN.

Bingham Consolidated's Long Tunnel Within 100 Feet of Brooklyn.

Within 100 Feet of Brooklyn.

While a veritable river of water is still saming from the mouth of the Bingham onsolidated company's Mascot, or Dalon & Lark, tunnel at Bingham, good rogress is being made with the work of ushing the long avenue into the company's territory. During the week ending the 16th the face was advanced thirty-nine feet, while the record for the past feet, has been fifty feet; not bad work hen it is considered that 3500 gallons of after per minute is making in the last of feet of the ground-passed through. Another 100 feet, of the ground passed through ated yesterday, would up the Brooklyn elin and he is confident of reaching there uring the next three weeks. When that dge is tapped the draining of the mines long its strike will be rapidly accompany in the Dalton & Lark workings in consisted and ore will then begin pouring om the Dalton & Lark workings in consulted and ore will then begin pouring of the company will be correspondingly added to.

At the Eagle & Blue Bell property in nitic, an option on the control of which being excreised by the Bingham corrupy, the new equipment is now all acce and working smoothly and the company's dertakings are now being carried along thout trouble of any description and e immediate future will see the company making an enviable record.

ORE AND BULLION.

ORE AND BULLION.

Week's Production of the Custom and Individual Valley Smelters.

lch, owing to the changes being made | Rocco-Home the plant, reduced its production about Sacramento -third during the week. A very few Silver King

hays will see the changes completed and he furnaces handling more ore than ever. The Highland Boy contributed its usual live carloads of bullion, containing a to-al of 301,000 pounds; the Bingham consolidated sent out three cars, with 180,716 bounds, and the United States two cars, containing 130,729 pounds.
ontaining 120,239 pounds. Stormy weather continues and the indiations are that the output of the vari-
ous districts will be somewhat restricted

BROOKLYN VEIN IS NEAR IN D.

& L. TUNNEL.

General Manager Farish of the Majestic company's Beaver county mines, reports a most important strike in the O. K. property. Its real extent is as yet undetermined, a cross-cut having been pushed through it for a distance of eighty feet without a sign, as yet, as to when the other side will be reached. The strike which had cut off the ores on the side nearest the shaft.

Manager Farish says the ore makes in the form of a copper pyrites, which is very evenly distributed through the rock. The mass carries good valu's, and because it is so different from anything heretofore found in the mine, both as to its matrix and the nature of the ore itself, it will not be surprising if it turns out to be a separate and distinct vein from that being developed to the west. Mr. Farish conciders it to be one of the most important disciosures ever made in that famous property, and the character of the ore, he says, will be a valuable component tant disciosures ever made in that famous property, and the character of the ore, he says, will be a valuable component tant of the ord the ord the says.

MINING STOCK EXCHANGE.

Week's Business Good, Though the

Market Weakend Somewhat. While business on the mining exchange as been very good during the past week. the trend of prices, generally speaking, has been downward. The market closes in better condition than it has shown for

as short time. But there is no question but that is will be back in the list new silm-retailing plant are under was the material for it is expected to be ready. It is said, to pay a dividend a first and the management in the list in June, and the management in the list of June, and the list of June, and the list of June, and the management in the list of June, and the management in the list of June, and the list of June, and the management in the list of June, and the list of June, and the management in the list of June, and the management in the list of June,

closes in good form at 27%c bid. 25%c asked.

New York, one of Park City's most popular low priced stocks, has fluctuated between 25c and 25%c, yesterday's sales being made at 28c. At the property a station is now being cut on the 306 level, where a little prospecting in the vein will be done. It is possible however, that to reach the pay chute another 100 feet will have to be sunk. The shaft is to be continued on down to that point, anyhow.

Wabash, with another 5c assessment, which the property is to be completed to escape his years of isolation at Stateline and in the near future, with Mrs. Dooley, he will come to Salt Lake and make his home.

J. B. Thompson, one of the popular members of the mining exchange, returned Friday night from a three weeks' visit to the old home in Hillsboro, O. He reports having had a most delightful time.

No Cessation in the Liquidation

ST. PAUL HAMMERED DOWN

New York, May 23,-Hopes of a turn a speculative sentiment were again disappointed by the action of today's stock market, in which acute weakness developed under a free outpouring of stocks in liquidation from all quarters. The selling movement gathered force with the progress of the trading, which was most active at the close and about the high point of the day. A violent break in United States Steel stocks soon after the opening had a very unsettling effect on the whole list. The only explanation of this special weakness was a rumor that the Chicago plants of the company had shut down. The trading was somewhat disconcerted also by the large increase in the engagements of gold for export to Argentina on Monday, bringing the total shipments for that date up to \$2,250,000. In the early selling there was evidence of support for Pennsylvania, and its comparative steadiness served as a partial offset to the weakness elsewhere. But that stock was among the leaders with the progress of the trading, which But that stock was among the leaders of the decline at the last, losing two full points. The most conspicuous liquidation, however, was that in St. Paul, which was forced down 3½ points under enormous offerings, making a new record for the movement by a margin of nearly 2 noints. of nearly 2 points.

of nearly 2 points.

Low Record of the Year.

The final break took the average level of the market to the low record of the Year, effectually wiping out the recovery of yesterday and the day before. The unfavorable criticism of the underwriting of the new Pennsylvania stock at the subscription price to stockholders was a depressing factor in the gen. The unfavorable criticism of the underwriting of the new Pennsylvania stock at the subscription price to stockholders was a depressing factor in the general market. The implied necessity of paying a commission to a syndicate to secure the subscriptions to the stock was regarded as a discouraging indication of the condition of the market for securities. The special weakness of St. Paul was attributed in part to the reports of a threatened strike among the freight handlers at Chicago. The bank statement disclosed a decrease in cash of \$1.235,000, compared with the expectation of a gain of from \$1,000,000 to \$2,000,000. But the loan contraction of \$5. statement disclosed a decrease in cash of \$1.235,000, compared with the expectation of a gain of from \$1,000,000 to \$2,000,000. But the loan contraction of \$5.476,100 reduced the reserve requirements sufficiently to leave a small margin of increase for the surplus. The market steadled a moment on the appearance of the statement, but prices plunged downward again in the late dealings. Union Pacific, Southern Pacific, Missouri Pacific, Southern Pacific, Missouri Pacific, Atchison, Reading and Amalgamated were the severest sufferers.

Mining Notes.

Ernest Bamberger, assistant general manager of the Daly-West, went out to the mine yesterday.

Two cars of ore from the Scranton, in the southern end of the Tintic district, reached the Conklin sampler yesterday.

With the the country has reached a culmination, with a period of reaction to be faced. There have been a few special developments during the week, which have had more immediate effect in causing the selling of stocks. The wild speculation in cotton has involved the culmination of the country has reached a culmination, with a period of reaction to be faced. There have been a few special developments during the week, which have had more immediate effect in causing the selling of stocks. The wild speculation in cotton has involved the culmination of the country has reached a culmination.

Manager Frank Cook of the Columbia Copper company says that plans will soon be completed for the new concentrating mill with which the property is to be equipped.

Outgo of Gold.

Manager Will J. Dooley of the Johnny has decided to escape his years of isolation at Stateline and in the near future, with Mrs. Dooley, he will come to Sait Lake and make his home.

J. B. Thompson, one of the popular members of the mining exchange, returned Friday night from a three weeks' visit to the old home in Hillsboro, O. He reports having had a most delightful time.

The Marysvale Freen Lance says that T. R. Henahen and William E. Burns, prominent mining men from Colorado, have been making a tour of the mining properties in that section during the past several days.

Tintic Miner: Several men are engaged tions to the Bank of England, incurred for applications for the Transvaal loan, were paid off. The reduction of the bank rate of discount from 4 to 3½ per cent on Thursday relaxed the exchange situation materially and the hope was engendered that the demand upon New York for further gold would cease. It is known, however, that large loans secured from Berlin bankers two and three months ago will mature during three months ago will mature during the next few weeks. The current bal-ance of merchandise exports in our favor was below expectations at the time these Berlin obligations were contracted, owing to the small cotton exports, a poor showing of grain exports and the large imports of various materials. Considerable further shipments of gold are thus within the possibilities.

Uncertain Labor Outlook:

All the news bearing on labor disputes is eagerly scaned in Wall street and the fact is dwelt upon that settlements are invariably effected by raising wages. The unvarying tenor of these reports is associated with the news of deceased traffic on various railroad systems, said to be due to reduced deliveries by manufacturers owing to the uncertainties of their labor outlook. A notable impression is caused by reports of the intended abandonment by various railroad systems of such projected improvements as have not been entered upon, owing to the high cost of materals of all grades and of labor. The effect of the yielding price of iron and the uncertainty over the level at which buyers and sellers will finally come together is a discouraging influence, owing to the accepted importance of the iron trade as a harometer of business conditions in general. The maintained views of the outcome of the bond issue and the stock conversion project of the United States Steel corporation have increased the pressure upon the stocks of the corporation, although the new bonds have advanced. The reports commonly accepted that applications for the new bonds, includ-Uncertain Labor Outlook.

The crop news is of growing importance to the stock market as the season progresses and the condition of the winter wheat crop is a helpful factor, but the unsatisfactory reports of the cotton crop and the prolonged delay in the planting of the cotton crop are supplemental factors in the depression of stocks.

larly on a larger volume of dealings, due principally to the heavy transactions in the new United States Steel sinking fund 5s.

United States new 4s declined 14 per cent as compared with the closing call of last week.

GRAIN AND PROVISIONS. Chicago, May 23.-Wheat was rather quiet early, but showed firmness later

quiet early, but showed firmness later, with a slight advance. Near the close a weak undertone developed and the close was lower, July showing a loss of 1604c. Corn was firm, with light trade, final figures being at yesterday's close. Oats showed considerable strength, July showing a gain of 16c, while provisions were fairly steady at an advance of 216c. The early wheat market, was easier on the cables and generally improved weather conditions, July opening a shade to 16c. We lower at 73%673%c, but predictions of frosts in Nebraska and some bad crop news from the Red River valley caused pit traders and commission houses to buy, and a firmer feeling ensued, July advancing to 1416c. Liquidation hear the end of the session caused a reaction, Armour being credited with miloading considerable. to 74%. Liquidation hear the end of the session caused a reaction, Armour being credited with unloading considerable July, and the close was easier, with July down %6% at 73%. There was no noticeable improvement in the cash situation. Clearances of wheat and flour were equal to 450,429 bushels. Primary receipts were 357,338 bushels, against 258,764 bushels a year ago. Minneapolis and Duluth reported receipts of 153 cars, which, with the local receipts of thirty-five cars, none of contract grade, made total receipts for the three points of 188 cars, against 157 cars last week and 132 cars a year ago.

The Bank Statement.

New York, May 23.—The statement of averages of the clearing house banks of this city for the week shows:
Loans. \$923,463,100; decrease, \$5,476,100.
Deposits. \$914.611.100; decrease, \$5,224,400.
Circulation. \$44,204,600; decrease, \$55,900.
Legal tenders, \$71,853,500; increase, \$1,-128,400.

Specie. \$166,002,000; decrease, \$2.754.400. Reserve, \$237,675.500; decrease, \$1.326,000. Reserve required, \$228,652,775; decrease,

Specie. \$186,02,000: decrease. \$2.754,400.
Reserve. \$237.65.500; decrease. \$1.326,000.
Reserve required. \$228,652,775; decrease.
\$1.556,100.
Ex. United States deposits, \$18,535,075; increase. \$223,50.
The Financier says: "The official statement of the New York associated banks last week showed a net decrease of \$1.326,000 in cash, instead of an increase of \$1,702,200. which was estimated on the basis of the traceable movements of money during the week. The discrepancy was doubtless largely due to the average system of the clearing house, which brought into last week more than \$1,000.000 of cash resulting from the withdrawal on Monday of \$1,250,000 gold for export to South America. and probably some portion of the \$2,000,000 which will be shipped to that destination on Monday was withdifference between the actual loss as shown by the statement and the estimated gain may have been caused by withdrawals of seceding trust companies or by those which will remain in the clearing house and which have not already made provision for the required cash reserve against cash deposits.

"The loans, contrary to expectations, were decreased instead of increased, the reduction being \$5,467,100. This was most likely the result of the extensive liquidation in the stock market during the week. The deposits were reduced by \$6,-234,400, or \$577,700 less than the amount called for by the decrease in loans and the net loss in cash, therefore the statement did not harmonize. The required reserve was less by \$1.556,100. and deducting from this sum the net loss of cash leaves \$220,100 increase in surplus reserve, to \$9,222,725. Computed on the basis of deposits, less those of \$7,724,400 of public funds, the surplus is \$18,555,075. Circulation was decreased, though by only the small amount of \$55,900. The average of the daily clearings for the week was \$231,000,000 against \$213,000,000 in the previous week probably reflecting the business incident to the gamble in cotton. The clearings on Saturday were \$247,112.-\$255. On \$16,000,000 great
